

Mounting Bracket for Use With Eye Bolt Systems

Stablecamper.com

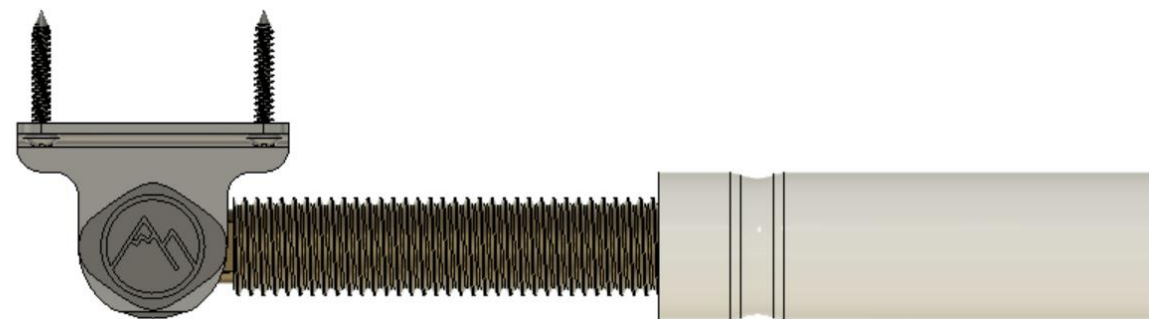

Truck Camper Stabilization and Accessories

We manufacture a stainless steel side storage rear mount as an alternate solution. This bracket attaches to the frame at the camper underwing.

The side mounts will be installed under the camper wing and will be the attachment point for the end of the side tube assembly. **Please note, these side mounts are designed for use with Stablecamper system only, not to be used with tie downs.

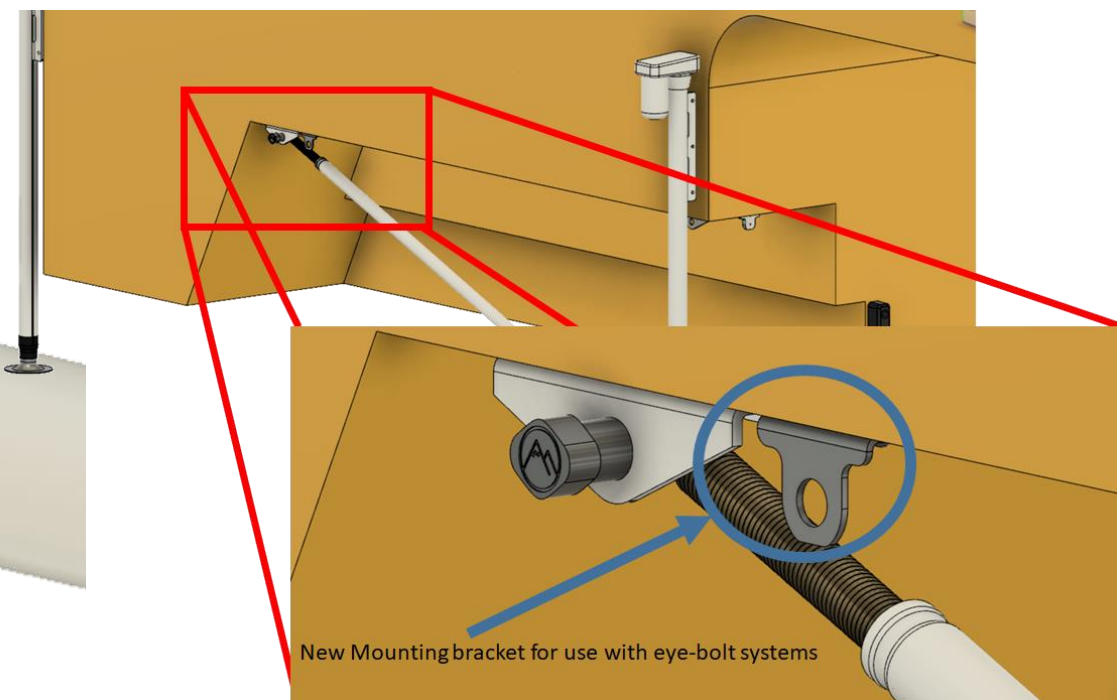

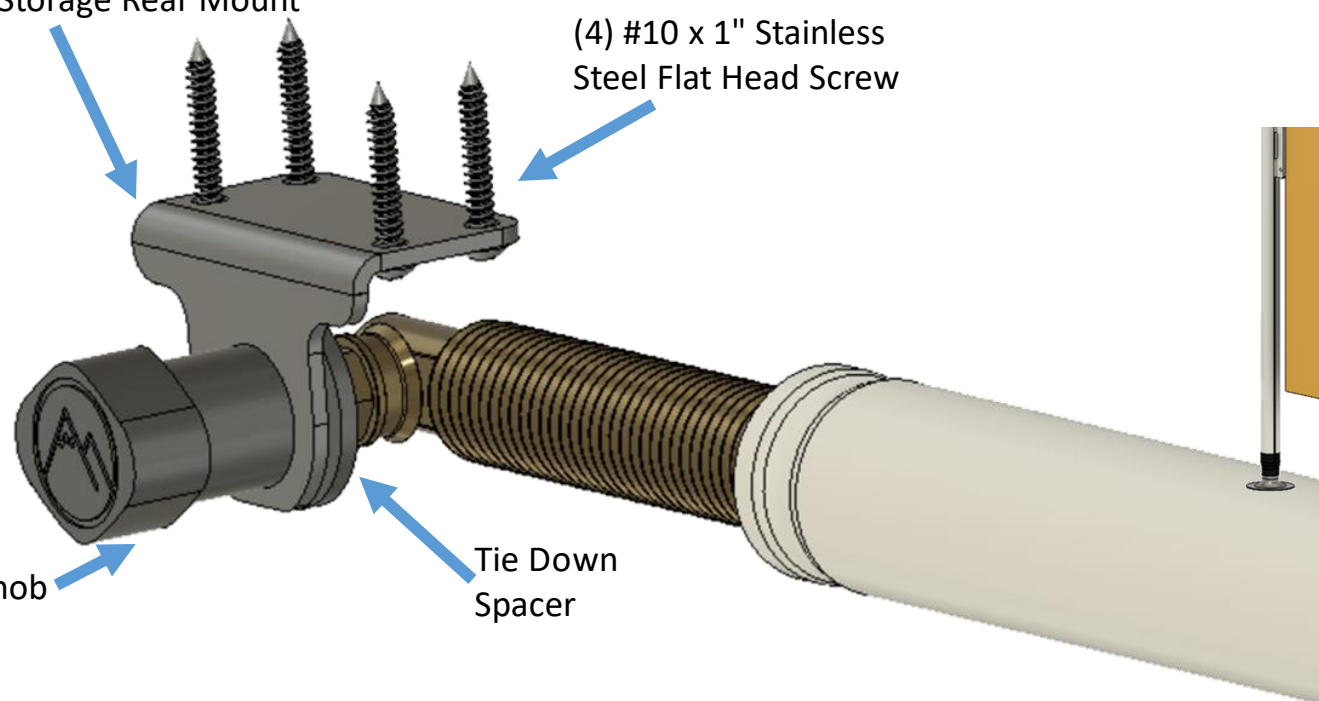

Side Storage Rear Mount

(4) #10 x 1" Stainless Steel Flat Head Screw

Knob

Tie Down Spacer
